Q: Cant link my application to UWP project in VS2015 I'm trying to create a simple, very simple, project with UWP in VS2015. But when I try to build the project or link the existing project, I get error which I don't know how to fix. This is the error message: Error 1 The type 'Windows.Web.UI.WebView' exists in both 'C:\Users\k\*\*\*\source\repos\Nos.UWP\Nos.UWP\bin\x64\Release\Nos.UWP.dll' and 'C:\Users\k\*\*\*\source\repos\Nos.UWP\Nos.UWP\obj\x86\Release\Nos.UWP.dll' I did try to clean the solution and restart VS, but nothing helped me. Thanks for any help. A: You can try to change the TargetFramework in Project->Properties->UWP as shown below: If you want to develop a UWP project in Visual Studio 2015, you could refer to this document. If you want to use the Win 10 UWP framework, you should change the TargetFrameworkVersion as shown below: If the TargetFrameworkVersion is set to UAP, the generated files will be copied into the portable library package and the project's output files will be recompiled, and this will cause the error that you got. You could try to change the TargetFrameworkVersion as shown below: If this does not work, you could try to use Windows 8.1 UWP framework, in this way, the old x86 architecture will be converted to x64 architecture, but the error will still occurred. You could try to change the TargetFrameworkVersion as shown below: If the TargetFrameworkVersion is set to

new feedback tools, you can incorporate your ideas with existing AutoCAD toolbars, or even with new and expanded toolbars. Markup is added to paper drawings as you import it, and it can be measured or tracked. Also, you can now easily import sections, components, and bills of material directly from Excel, Word, PowerPoint, and other popular documents. Now, you can review and comment on drawings before they're actually printed. And markups can be used to track bills of material, even if you're working with paper drawings or PDFs.
