You have to control a probe that must move through the maze. The goal is to collect all blocks in the maze and reach the end of the maze.You control the movement of the probe by tilting your device. The more you tilt your device, the more accurately the probe moves and the faster it will go. If the probe touches a wall, it stops moving. But that also prevents you from changing direction. To create more obstacles, in some areas there are small blocks on the floor. You have to figure out how to clear them all to move ahead. Obstacle: This is the main menu of the game. : The Dragon Wand and Its Use What is the Dragon Wand and what can it do? What must a person do to be able to summon this awesome weapon? Are there ways that this tool can be controlled? Let us start with the basics then we will move on to demon control. What is the Dragon Wand? Here is what I know that makes the Dragon Wand different from anything else that I have ever encountered. This item belongs to the Dragon Demon, which is a powerful being that was imprisoned 2,000 years ago. The task set for this fellow was to destroy the planet. Somehow or another, he managed to half-destroy the planet in the last century and completely destroy the planet a thousand years ago. After destroying the Earth, the Dragon Demon began to wander and look for other planets to destroy. They ventured to several planets, each one falling prey to the evil clutches of the Dragon Demon. Eventually he found an inhabited planet, and at a very populated world. The Dragon Demon was driven to live amongst humanity so he could kill more people. Now, these are not the people that one would imagine for a being who could destroy entire planets, but there was no choice. The Dragon Demon entered into the village of the people on the planet. He wanted to make human sacrifices in order for the people to gain power over the land for his own agenda. They came up with a sacrifice, and the Dragon Demon agreed. Several people were taken to die in a filthy dungeon. But not just any dungeon, for this punishment was only temporary. The Dragon Demon wanted one that he could control. The Dragon Demon took the hands of each person that were taken, and placed them on a wooden board in a ritualistic fashion. This ritual kept each hand usable to do the bidding of the Dragon Demon. The Dragon Demon placed each hand on a wooden handle, then all were chained with a battle axe handle and lid that was beneath the handle. This connection allowed only one person to be be able to use his hand at a time. The Dragon Demon took each of the hands and gave each a palm for an eye and an eye for a palm. This created a grid of 24 palms, with each palm being controlled by one eye. They were given the task of being in total control of the entire planet. Because each hand was given a specific eye control to be able to see

where to use their hand, the Dragon Demon could now see where each person was on the planet at all
