Facilities Computer program FigrCollage 2.5.11 contains the guide that can be employed to produce and also show any kind of picture collage. Computer program It assists the customer to operate with the various pictures, insert the required images, merge them to one another, and also incorporate lots of picture variations such as watermarks, credits, and also special individuals, shapes, and also effects as well. FigrCollage 2.5.11 Mac Osx could be utilized for professional purposes to merge a picture collage. For this purpose, you might want to pick out one picture at a time and after that produce the collage. For instance, the customer might pick out the very first picture that best describes his or her message. If it's a personal collage, you could pick out a picture of the child after that merge his or her picture on it. If you are making a collage of professionals, you could pick out a picture of a talent after that merge his or her picture on it.Q: How do you sort a list of objects? I have a list of Item objects, each of which has 3 properties. How do I sort this list by ascending order of the Name property? A: try this: foreach (var item in items) { if (item.SortOrder > 0) { item.SortOrder--; } } and assuming your class looks like this: public class Item : IComparable { public int SortOrder; public string Name; public string DisplayName; public string PropertyName; public string Comment; public int CompareTo(object obj) { var item = obj as Item; if (item!= null) { // compare the sort order return this.SortOrder - item.SortOrder; } return String.Compare(this.Name,
