### Silent Woods: The Cleansed Features Key:

KEY  
GOLD  
CASH

### EARN BENEFITS:

When you purchase a key, the time of purchase becomes counted towards your game time. The success rate of the purchases and the time it takes to scan the codes (using Gazebo or other software) is kept track of, so the sooner you pay and the cleaner the codes are made, the faster they will be counted towards your time. If you have any credit left, the amount of credit can be carried over to the next purchase as well as any unused purchases.

### MEMBERSHIP BONUSES:

For every key you buy you receive a 10% bonus towards all future purchases as well as a unique in-game item and an extra 10% membership in the forums. We will also be rolling out a few other awesome rewards in the future.

### REQUIREMENTS:

All the content of the game is available to everyone at no cost. As with all of our games, you do not need any additional software to play the game but you may need additional software to download the game and the files do have to be a certain size and uploaded to the site.

### SCAN THE CODES:

The codes are our most valuable asset as they are the first thing you will use within the game. Your computer needs to be able to handle the files that are generated and registered. All you need to do is purchase a key and register it in the same way as an item within the game. Once that's done you will have entered the game and be able to start logging in and downloading the data. You will use Gazebo or similar software and the codes should simply be dragged in and registered. There is no need to scan them again after they are registered.

### GOLD:

Gold is our main currency of trade as it helps everyone pay for items, weapons and guild transactions. As everyone needs Gold to pay for selling and trading within the game we provide this currency for people to use. You can earn this currency from some stories. The requirements for this is that you need to complete the scenario for one of the characters in the

----- Buy Silent Woods Game (Link) : Link to PlayStation Store: ----- My channel is about to do Game Theory (GT), a series of videos about how games work as well as how they could be better. For the sake of this video game theory, we will be taking a look to game design, inspiration and a lot more. I will be trying not to get too much into the subject as it can be a really really broad subject, but this video is not to be taken as an in-depth survey of the game theory behind games. And if it is subject that interests you, then go watch the video about The GameDesigner: On this edition of The Know, Bill talks with an economist about why the America is going through hard times. It's the first show of the 2016 election season, the GOP's presumptive nominee has been laid to rest, and things are moving from "interesting" to "complicated." How do you keep up with politics? The Know regularly provides insight on the news, issues and politicians on the mind. Check it out! Do you want to know more about this topic or others like it? ### **What's new in Silent Woods: The Cleansed:**

Earth Silent Woods: the Cleansed Earth The endgame for Silent Hill 2 is agonizing and emotionally disturbing. The final hours of Silent Hill 2 are a nightmare realized, so those who play the game to the end will probably want to breathe through their noses until the game is done. The climax of Silent Hill 2 is the scene when Peter Shepherd climbs over his dunes and finally reaches Brookhaven Memorial Hospital. After about three hours of wandering through the desert, he is finally led to "the ER." The game ends up telling you, in the most simplistic, in-your-face way, that death is almost completely meaningless. After reaching the hospital, Peter Shepherd is taken to a room with a body of a kid in a hospital bed. He goes in and looks at the corpse, and the corpse disappears. He goes to another hospital bed and peeks at the corpse of the kid again, and he disappears again. Here's the thing: the simple process of discovering that death is meaningless results in a more profound existential question. There are so many things that are left unresolved and unsaid in the ending of Silent Hill 2 that when you arrive at the hospital you think to yourself, "Oh, I guess just what your Mom said. Nobody really really ever dies." And then you become lost in the realization that not only does death not really exist, but that everything you see and experience before you is also not real - the nothing and the everything are both fake. You begin to wonder if the whole thing about humanity in the silent countryside is fake. And what you come to realize that all of it was a dream or a lie "It was all a lie, right from the start.' He looked up at me, mouth was twisted. He gripped my arm. It felt real, though. Bone-chilling real. 'Tell me you're not one of them, too.'" "So he's dead?" "Silently dead." [A] box pops up on the display, onto which Ravaged has entered his inscription. "Thank God you've been released." Natasha said." So in a way, even though the statement that "Nothing exists" is startling to the player, all of it was fake and unreal. And so in an odd way, you found out
