Magic Editor Crack Serial Number Full Torrent Free Download

Magic Editor is a comprehensive text editor that can handle TXT, RTF and XLS documents and comes packed with a bunch of handy editing and formatting options. It also features a clip text panel where you can store frequently used drafts. Hide unnecessary toolbars Despite the cluttered interface, with a bit of time, you can easily spot all the usual functions from each toolbar. Plus, if you want a simpler look, you have the choice to disable unwanted toolbars. The page type can be switched between normal page, page break and page layout. Modify TXT, RTF and XLS files You can open plain and rich text documents, along with Microsoft Excel spreadsheets. The data table can be customized with colors and modified by adding or deleting cells and rows. The personalization elements are disabled for plain text files. Store and add the most used phrases to the text processor You can open plain and rich text documents, along with Microsoft Excel spreadsheets. The data table can be customized with colors and modified by adding or deleting cells and rows. The personalization elements are disabled for plain text files. Set hotkeys for each toolbar item It also has customizable toolbars

with drag-and-drop functions. You can define shortcuts for any toolbar element by simply typing a shortcut combination, like Ctrl+Alt+Shift+O and hitting the Enter key. Personalize the content and fit it into the page. Besides the standard editing functions (e.g. cut, copy, paste, search, replace), the composition can be personalized with custom font types, colors, sizes and styles, as well as arranged in the page and wrapped to the window. Create lists, enter pictures and bookmark essential phrases. In addition, you can insert bullet and number lists, useful for organizing important information, like shopping lists, and personal or team tasks. It's possible to insert images as well. The app lets you add specific sentences or passages to a bookmark folder and access them with ease. Feature-rich word processor. The bottom line is that Magic Editor is a reliable piece of software designed to offer simple means to compose and edit TXT and RTF documents, as well as further modify your XLS spreadsheets and make calculations (sum, average).
